Y

RECRUITER BRIEF / OCTOBER 2026

Yahya El-Sawi

Primary: Product & UX / Secondary: Frontend Development

A Dubai-based computing graduate who connects product judgment, responsive implementation, and disciplined technical evidence.

LOCATION	AVAILABILITY	AUTHORIZATION	MOBILITY
Dubai, UAE	As soon as needed	Self-sponsored Golden Visa	Remote + relocation

01 / TARGET ROLES

A clear primary and secondary fit.

01 / ROLE FIT

Product & UX

Figma / flows / responsive UX / accessibility

Research-led product thinking with implementation-aware decisions and clear scope boundaries.

02 / ROLE FIT

Frontend development

HTML / CSS / JavaScript / Vue / testing

Production web experience spanning responsive interfaces, UX, performance, and testing.

02 / PROFESSIONAL SIGNALS

Experience with accountable boundaries.

SEP 2026–PRESENT	**Credo Technology Services** **Business Development Associate Intern**	B2B account research and opportunity development for Microsoft licensing and Professional Services; no sales results claimed.
JUL–AUG 2026	**StarLink, an Infinigate Group Company** **Cybersecurity Intern**	Enterprise firewall, identity, authentication, networking, traffic-analysis, and troubleshooting labs.
MAY 2024–PRESENT	**Gift It** **Frontend Developer & Product Associate**	Production web features, UX, testing, performance, databases, and product collaboration.

03 / QUICK VERIFICATION

11 credentials
Visible previews + source files

7 project records
Contribution and outcome boundaries

Direct contact
Secure first-party form handler

EVIDENCE OVER CLAIMS

A short path to the proof.

03 / SELECTED EVIDENCE

Three projects, three explicit boundaries.

01 / PRODUCTION-INFORMED UX

Gift It Checkout & E-Invite Redesign

Maps checkout friction, trust, confirmation, and transactional communication into an end-to-end product proposal.

OPEN CASE STUDY

Verified boundary: No conversion lift is claimed; the case study defines what should be measured after implementation.

02 / ACADEMIC PROOF OF CONCEPT

SmartMall AI Network Automation

Turns network intent into explainable plans, deployment actions, validation evidence, and closed-loop recovery in GNS3.

OPEN CASE STUDY

Verified boundary: Equal contribution across five collaborators; the demo improved passing pings from 7/10 to 9/10 in about seven minutes.

03 / BACKEND & DATA

Vehicle Rental Operations Database

An Oracle relational backend covering access control, operational queries, transactions, reporting views, and backup planning.

OPEN CASE STUDY

Verified boundary: The backend was implemented; the dashboard shown in the case study remains a product concept.

04 / EDUCATION & TOOLKIT

BSc Computing and Information Technologies / Business Administration minor

Rochester Institute of Technology Dubai / Awarded May 2026

PRODUCT & UX	Figma / prototyping / responsive UX / accessibility
FRONTEND	HTML/CSS / JavaScript / Vue.js / React Native / testing
SYSTEMS	Oracle / Python / Cisco IOS / Palo Alto / Active Directory / LDAP/LDAPS
